

ANDUELA NURSHABA

Full Stack Developer

Objective

Passionate Full Stack Developer dedicated to building innovative web applications. I aim to leverage my skills in both front-end and back-end technologies to create exceptional user experiences. Eager to join a motivated team where I can contribute to project success.

Work Experience

MakerMinds GmbH, Bruhl, Germany

2021
-
2023

- **Java Developer** - Create object oriented(OOP) projects with MVC pattern using Eclipse and test that project using JUnit(Eclipse). I've integrated and developed the company's projects with dynamic content, data validation and dynamic GUI.
- **Java Trainer and Mentor** - I mentore students on Java training, 3 months of training and 3 months of internship , bycreating project and also help them learn and progress.

Star Labs L.L.C, Prishtine, Kosove

2024

- **React Developer** -During my internship at StarLabs, I collaborated effectively within a team, contributing to the development of a project using technologies such as ReactJS, NodeJS, Express, MySQL, Tailwind CSS, and JavaScript. I was responsible for completing assigned tasks and consistently delivered high-quality work, demonstrating strong collaboration and communication skills. This experience enhanced my technical proficiency and deepened my understanding of teamwork in a professional environ
